Professional Summary

Computer Science and Engineering graduate with hands-on experience in developing cross-platform mobile applications using **Flutter and Dart**. Experienced in **Firebase Authentication, Cloud Firestore, REST APIs, GetX, Bloc/Cubit, and payment gateway integration**. Completed a 6-month Flutter Development internship at QodeMatrix Tech Solutions, working on real-world application development, UI optimization, Firebase integration, and bug fixing. Focused on building responsive, scalable, and user-friendly applications with clean UI/UX.

Experience

Flutter Developer Intern **Sep 2025 – Feb 2026**
QodeMatrix Tech Solutions Gurugram, Haryana

- Developed cross-platform mobile applications using **Flutter and Dart**.
- Integrated **Firebase Authentication** and **Cloud Firestore** for secure authentication and real-time data management.
- Improved application UI performance and resolved functional and interface-related bugs.
- Worked on real-world application development and implementation of production-oriented features.

Software Engineering Job Simulation **June 2025**
Skyscanner – Forage Remote

- Completed a software engineering job simulation involving development of a basic web application with functional API integration.
- Designed and implemented a **Dropwizard microservice** enabling users to search and book car rentals and hotels using REST API endpoints.
- Developed an Android application to fetch and display flight itineraries using the **Backpack SDK**, managing UI components, API calls, and data parsing.

Education

Om Sterling Global University, Hisar **2022 – 2026**
B.Tech in Computer Science and Engineering **CGPA: 8.07/10**

Shivalik Sr. Secondary School **2022**
Class 12 **Score: 70%**

Shaheed Bhagat Singh High School **2020**
Class 10 **Score: 89%**

Technical Skills

Languages: Dart, C, Python
Mobile Development: Flutter, Android
Backend & Database: Node.js, Cloud Firestore, Firebase Authentication,MongoDB
State Management: GetX, Bloc, Cubit
Integration: REST APIs, Razorpay Payment Gateway
Tools & Technologies: Git, GitHub, VS Code, Antigravity, Android Studio, Figma

Projects

Easy Shopping – E-Commerce Application **GitHub**

- Developed a cross-platform e-commerce application using **Flutter and Firebase** with product listing, cart, orders, reviews, and secure payment functionality.
- Implemented user authentication and real-time data handling using **Firebase Authentication and Cloud Firestore**.
- Integrated **Razorpay** for secure payment processing and implemented order tracking and product updates.
- Designed a responsive and user-friendly UI/UX with optimized application performance.

Task Management App **GitHub**

- Developed a task management application using **Flutter and Firebase** for authentication and real-time data storage.
- Implemented task creation, editing, deletion, completion tracking, priority filtering, and task categorization.
- Organized tasks into **Today, Tomorrow, and This Week** sections.
- Used **Bloc/Cubit** state management to maintain organized application state and smooth user interactions.

Achievements & Certifications

- Completed **Artificial Intelligence Certificate Course**– ICT Academy Infosys Foundation.
- Completed a **6-month Flutter Developer Internship** at QodeMatrix Tech Solutions.
